A 9385-14 2/86

The WICHE Student Exchange Programs

STATISTICAL REPORT
ACADEMIC YEAR 1985-86

WICHE

Improving Education In The West

WICHE AND STUDENT EXCHANGE

Programs to encourage and facilitate sharing of higher education facilities and programs among the states lie at the heart of the Western Regional Education Compact, the formal agreement establishing the Western Interstate Commission for Higher Education (WICHE). WICHE was initiated in 1950 by thirteen western states, expanded in 1985 to fourteen through the affiliation of North Dakota.

This report presents statistical highlights for 1985-86 concerning five student exchange mechanisms that make it possible for nearly 1,850 residents of the fourteen cooperating states to attend certain undergraduate, graduate, and professional education programs not available in their home states, at reduced levels of tuition.

The Professional Student Exchange Program (PSEP) is the oldest and largest of the WICHE exchange programs. Students pay resident tuition (one-third of regular tuition in private institutions) and the sending states pay an additional "support fee" established by WICHE. The program was initiated in medicine, dentistry, and veterinary medicine. Over the years since the program began in 1953, the three initial fields have been expanded to sixteen. In 1985-86, 1,378 students are enrolled in 125 programs in 59 public and private institutions in and outside the region; support fees aggregating $12,935,371 are paid through WICHE to the receiving institutions.

The Western Regional Graduate Programs came into operation in 1981, extending tuition reciprocity initially in five and ultimately (fall 1987) in thirteen cooperating states (all except California) in designated graduate programs. Programs are nominated by the sponsoring institutions and chosen after an extensive review intended to assure that the programs are distinctive. Students pay resident tuition. There is no supplementary support fee payment in this program. Student participation has grown slowly, as the number of participating states and institutions has also grown. In 1985-86, 48 new and 82 continuing students are participating in the Western Regional Graduate Programs in 10 states and 24 institutions.

The Community College Student Exchange Program provides opportunity for eligible students in Idaho, Montana, and Wyoming to attend a community college at resident tuition within the three states under either of two concepts: (1) the college attended, though across a state line, is nearer the student's home than a community college in the home state; or (2) the receiving college has designated the field in which the student enrolls as a "regional curriculum." North Dakota is joining the other three states in this program. Currently more than 250 students are being assisted through this program.

The Mineral Engineering Program opens opportunity for enrollment, at resident tuition rates, in geological, metallurgical, mining, and petroleum engineering and in mineral processing to residents of WICHE states in which such opportunities are not available. In 1985-86 forty-two students are enrolled in three institutions.

Through WICHE Scholars, any WICHE state may assist its residents in any field at any degree level, by providing the difference between resident tuition (paid by the student) and the receiving institution's nonresident tuition (in private institutions, as in PSEP, the student pays one-third of regular tuition and the home state pays the other two-thirds through WICHE). Some 35 students are enrolled through WICHE Scholars in 1985-86.

In this annual statistical report, Tables 1 through 5 provide information concerning the Professional Student Exchange Program. Information about the other exchange programs follows these tables. For all programs, further information is available from WICHE at the address on the back cover.

TABLE 1

Professional Student Exchange Program

Regional Graduate Programs

The Western Regional Graduate Programs (WRGP) began in 1981 in the five Northwestern states and after nomination rounds in 1980, 1981, 1983, and 1985, has grown to include 12 states, 32 institutions and 90 graduate programs. Current participants are Alaska, Arizona, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. A nomination round currently under way will include North Dakota as the 13th state for fall of 1987.

Programs are selected for the Western Regional Graduate Programs (WRGP) because they are distinctive and not commonly available. All states and institutions cooperate in the program review and selection process.

The Regional Graduate Programs differ from the Professional Student Exchange Program in several important ways:

- The programs in WRGP are primarily academic, not professional.
- No support fees are paid by sending states; participating states waive the nonresident tuition differential for students admitted to these programs. Private institutions reduce tuition by at least one-fourth.
- Students apply directly to the graduate program in which they are interested, and complete no application for WICHE or state agencies.

Programs are available in the following curriculum areas:

Agriculture and Natural Resources
Architecture
Biological Sciences
Business and Law
Education and Criminal Justice
Engineering
Forestry
Health Professions
Home Economics
Humanities
P.E. and Human Movement Studies
Physical Sciences & Mathematics
Social Sciences
Social Work, Psychology, and Public Affairs
Visual & Performing Arts

The Western Regional Graduate Programs brochure, which lists all programs and institutional contacts, is available from the Student Exchange Program office. Contact Sandy Jackson (303) 497-0214, or Richard Markwood (303) 497-0220.

[a] Excludes Regional Graduate Programs students at Eastern Washington Master of Social Work.

[b] Includes Regional Graduate Programs students at Eastern Washington Master of Social Work.

[c] Will join program on full basis in Fall 1986.

Community College Student Exchange Program

The Community College Student Exchange Program (CCSEP) is a mechanism through which cooperating states may send and receive students, on a resident tuition basis in two categories: (1) the college attended is closer to the student's home than a community college in the home state; (2) the program in which the student enrolls is designated by the cooperating college as a "regional program" open to students from the cooperating states. During the 1985-86 academic year, North Dakota joins with Idaho, Montana, and Wyoming in the Community College Student Exchange Program.

In Fall 1985, one Idaho, one Montana, and two Wyoming institutions enrolled students under the "closest college" concept, accommodating 122 individuals who otherwise would have faced difficult and more costly choices in order to continue their education. One Idaho and three Wyoming institutions enrolled students in designated regional programs, accommodating a total of 135 students. In all, five of the dozen community colleges in the three states which were participating in Fall 1985 enrolled 257 students through CCSEP, an increase of nearly 25 percent over Fall 1984. Montana, which is a primary receiver of students in the Mineral Engineering Program, is the dominant sender in CCSEP.

* The College of Southern Idaho admits Nevada residents in adjoining counties as resident students. Number enrolled in 1985 not reported.

Mineral Engineering Program

The Mineral Engineering Program provides opportunity to residents of WICHE states for study, at resident tuition rates, in baccalaureate programs in geological, metallurgical, mining, and petroleum engineering, and in mineral processing. Six public institutions in Alaska, Arizona, Idaho, Montana, Nevada, and Wyoming participate; in 1985-86, 42 students from 10 WICHE states are enrolled through the program in three schools (see Table).

TOTALS	4	2	2	3	8	3	1	6	4	9	42

Scholars Program

WICHE Scholars is a program through which WICHE states may extend tuition assistance to residents in programs not available in public institutions in the home state and not available in other WICHE exchange programs. The student pays resident tuition (one-third of the standard tuition charge, in private institutions); the sending state pays, through WICHE, the remainder of either the nonresident tuition charge or of the regular tuition (in private institutions). In 1985-86, thirty-five students are participating. Wyoming is the only state that regularly sends students in this program.

WICHE

Improving Education In The West

WICHE, the Western Interstate Commission for Higher Education, is a nonprofit regional organization. It helps the thirteen member states and one affiliated state to work together to provide high-quality, cost-effective programs to meet the education and manpower needs of the West. Member states are Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming; North Dakota is an affiliated state.
